## SUMMARY

---

Results-oriented mechanical engineering student seeking an internship. Strong knowledge of the design process, prototyping, and CAD software gained through hands-on projects and past achievements.

## EDUCATION

---

**Texas A&M University, College of Engineering | College Station, TX**

May 2029

*Bachelor of Science in Mechanical Engineering | GPA: 4.00*

Relevant Coursework: Newtonian Mechanics, Electricity & Magnetism, Engineering Computation, Engineering Mathematics I-III, General Chemistry

## PROJECTS

---

**Wearable Robotic Thumb (In Progress)**

May 2026 - Present

- Developing a functional wearable robotic thumb prototype, controlled wirelessly via IR remote, by integrating SolidWorks modeled 3D-printed components with an Arduino driven SG90 servo system

## EXPERIENCE

---

**Team Leader, NASA HUNCH | Cypress, TX**

August 2023 - May 2024

- Designed and modeled a Multi-Tool Badge Holder prototype for NASA in Inventor and AutoCAD, carrying 5+ tools, alongside 2 team members
- Fabricated and tested 4+ prototypes with 3D printers, drills, and leatherworking tools, troubleshooting design challenges
- Presented design concepts to University of Houston professors and NASA employees at Johnson Space Center, advancing to the Semi-Finalist round in a national competition

**Brand Ambassador, American Eagle Outfitters | Cypress, TX**

May 2025 - August 2025

- Delivered exceptional customer service by assisting 40–80 customers daily, using the AEO Selling Model to identify needs and recommend tailored products
- Promoted brand loyalty programs by introducing the AEO Rewards Program and sharing product knowledge to build long-term customer relationships
- Collaborated with team members to achieve \$30K–\$60K in daily sales, uphold visual standards, and foster a positive, team-driven environment

## LEADERSHIP

---

**Youth Facilitator, Ismaili Youth Volunteer Corps | Katy, TX**

August 2024 - August 2025

- Guided team leaders to effectively facilitate their team of young volunteers as they completed various tasks; registered 17+ new youths during leadership
- Classified over 40 members into their respective groups annually and reported attendance, uniform requests, and meeting minutes to the regional-level team

**Teacher, Community Service | Katy, TX**

August 2021 - May 2024

- Appointed as lead teacher for a 4th-grade class with 10+ students; designed innovative weekly lesson plans that increased student engagement and participation
- Taught young individuals about the Islamic faith 3+ hours weekly, building strong character and preparing them for their end-of-year assessment through discussion and hands-on activities

## PROFESSIONAL ORGANIZATIONS

---

Texas A&M American Society of Mechanical Engineers (ASME)

January 2026 - Present

## HONORS & AWARDS

---

Foundational Excellence Award - *Texas A&M Foundation*

Toshiba International Corporation Endowment - *Cypress Fairbanks Educational Foundation*

NASA HUNCH Semi-Finalist - *NASA HUNCH Design & Prototyping*

## SKILLS

---

**Technical:** SolidWorks, Autodesk Inventor, AutoCAD, 3D Printing, Arduino, Python, MS Office
